

Rapport Document

For 13/12/2022 :

Done :

- Creation specification Document – PA/Dylan/Matis
- Creation Backlog Document – PA
- Modification Activity Diagrams/Sequence Diagrams/Use Case Diagrams – PA/Dylan/Matis

To Do :

- Discussion about the architecture document

For 04/01/2023 :

Done :

- Creation New Domain Class Diagram – PA
- Update documentation document - PA

To Do :

- Discussion about the architecture document

For 11/01/2023 :

Done :

- PA has created a new activity diagram for the login part, it was asked by Mr. Ferry. This diagram has been added to the specification document – PA
- Dylan has upgraded the handle health data activity diagram by specifying the user and the timestamp to select to see the data, it was asked by Mr. Ferry. This diagram has been added to the specification document – Dylan
- Matys added all his diagrams and his part (handle personal circle) on the specification document – Matys
- We created a new development board on Github with all the tasks to do to make 2 of our use cases which are the login/register use case and the Handle health data. – PA/Dylan/Matys
- We created a new non-development board on Github with all the tasks to do about non-development tasks like for the documents – PA/Dylan/Matys

To Do :

For 11/01/2023 :

Done :

- PA has updated the sequence diagrams of the UC1 – Authentication to add exceptions – PA
- PA has created a product owner report on excel – PA
- Dylan updated the sequence diagram of the UC2 - Examine Health Data to add the interface – Dylan
- Dylan has created the scrum master report on excel – Dylan

To Do :

- Make the new sprint board for the 1st sprint
